Our purpose:

To promote the highest standards of neonatal nursing practice, education & research and to assist the neonatal nurse in advancing professional development.

Our goals:

Facilitate an exchange of information among neonatal nurses.

Provide a forum for continuing nursing education for neonatal nurses.

Maintain a communication network among neonatal nurses in the region.

Support community service activities that promote the wellbeing of babies and families in the region.

PNANN Annual Fall Conference

November 6, 2019
7:30 A.M.—4:00 P.M.

Hilton Seattle Airport & Con-
ference Center
17620 International Blvd.
Seattle, WA 98188

Conference Objectives

Upon completion of this program, the nurse will be able to:

1. Identify two nursing interventions to conserve the ELBW infant's energy expenditures.
2. List three interventions to maximize fat delivery for continuous feedings.
3. Discuss the contribution of newborn mortality to global childhood mortality.
4. Appraise the potential direct and indirect impact of early nutrition on adverse neurodevelopment.
5. Describe the methodological issues and neonatal morbidities affected by modern use of cow's milk derived fortifiers for mother's own or donor breast milk.
